

To Whom It May Concern:

I am writing to express my concern and extreme opposition to the FCC proposal to expand and prioritize Low Power FM stations over current FM translator service. By doing so the FCC would threaten the very existence of existing FM translators which include stations like KLOVE.

This would be a travesty as the important service to the community that stations like KLOVE provide can not be replaced. KLOVE provides a positive, uplifting, and encouraging message through music, encouraging stories and news and positive teaching. At a time when our culture is constantly bombarded with negative and destructive messages, there has never been a greater need for stations like KLOVE.

I ask you to reconsider this proposal.

Thank you ahead of time for your consideration.

Sincerely,

Cory Botts
